

**THERMO-PROBES.COM**
**TOLL FREE  
800-795-8991**

**THERMOCOUPLES**

Common types available including: B, E, J, K, N, R, S, T. Many different configurations to choose from to best accommodate a range of applications.

**RESISTANCE TEMPERATURE DETECTORS (RTDs)**

Many resistance and coefficients available to match replacement elements or meet new construction requirements. We also carry Stator RTDs and Surface Mounted RTDs.

**THERMOWELLS**

Thermowells, Sample Probes, Test Wells, and Sand Probes in common and exotic metallurgy. Tantalum Oversheaths and other accessories are available.

**CUSTOM MACHINING**

Engineering and machining expertise to bring your design to production.

**THERMOMETERS**

High quality bi-metal thermometers made in the USA. Dual-mode models: combination of bi-metal and secondary sensor in-one, are available.

**PRESSURE GAUGES**

Reliable gauges made in the USA to meet demanding industrial environments.

**SIGNAL CONDITIONING & DATA MANAGEMENT**

Advanced controlling, monitoring, and data collection capabilities. Solutions include battery powered displays, wireless transmission, and cloud based data management.

**TRANSMITTERS & FIELD DISPLAYS**

Wide range of signal conditioning options including: isolated 4-20mA output, HART Protocol, Near Field Communication (NFC), Bluetooth, FM, CSA, ATEX and other certifications available.

**novus**
**PANEL MOUNT DISPLAYS & DATA LOGGERS**

Displays and logging systems available to accommodate a variety of inputs.
